

Online Education

About Online Education

MiraCosta College offers classes and resources online to provide students with a flexible option for attaining success through superior educational opportunities and support services.

- ▶ Fully online classes at MiraCosta require all coursework and activities to be completed online. Classes offered *100 percent online* have no face-to-face requirements. Some of these classes have no scheduled online meetings and are listed in SURF with a room location of **Online**. Other classes may include scheduled online meetings and will be listed in SURF with the days and times of meetings, with a room location of **Zoom**.
- ▶ *Hybrid* classes at MiraCosta require both in-person and online activity. Some hybrid classes require regular meetings at a MiraCosta College campus while others require physical presence only for proctored exams.
- ▶ *HyFlex* classes at MiraCosta give students a choice with each class meeting of attending on campus or online via Zoom.

Online classes comprise equivalent content and satisfy the same academic requirements as their on-campus counterparts. For a schedule that shows all fully online and hybrid course sections being taught at MiraCosta, please visit the Online Education webpage.

Online Support Services

The college provides a wide range of free online support services to assist all students, including online counseling and advising, online tutoring and writing feedback through The Learning Centers, live chats with college librarians, and technical support through the Student Help Desk.

The college provides many one-hour Student Online Academic Readiness workshops each semester. Students can find links to all of these resources on the Online Education webpage.
