# Liberal Arts with an Area of Emphasis in Business and Technology 

## Academic and Career Pathway

Business and Technology

## Associate in Arts Degree

## Liberal Arts with an Area of Emphasis in Business and Technology

This pattern of courses is designed to provide students with the introductory skills and knowledge required for entry to the world of business, commerce, and technology. Students are introduced to technical skills required in business, and the business courses emphasize theories, strategies, and practices that are applicable to small entrepreneurial ventures as well as business conducted in the global marketplace.

The computer studies information and technology courses (CSIT) and the media arts technology courses (MAT) provide students with the opportunity to develop, access, analyze, and integrate information in a professional setting. Critical thinking courses focus on the development of decision-making and problem-solving techniques.

This emphasis is ideal for the liberal arts student seeking an enhanced understanding of the business environment and the practical application of the skills required for success in the business world. Students transferring to a university may choose courses that will prepare them for majors in accounting finance, business, and economics, or courses selected can provide a lower-division foundation for a business minor. Career paths include employment in the fields of management, marketing, accounting, music, the hospitality industry, and information technology. Students are advised to meet with a counselor to select courses that are most appropriate to their educational goal.

## Graduation Requirements

- Complete a minimum of 60 degree-applicable units of credit (including major and general education courses).
- Complete all courses required in the major with a "C" or "P" or better.
- Complete a general education pattern of courses (see Associate Degrees).
- Obtain a minimum GPA of 2.0 .
- Complete a minimum of 12 units in residence at MiraCosta College.

## Program Student Learning Outcome

Upon completion of this program, the student will be able to develop communication, critical thinking, and intellectual skills that effectively prepare him/her for lifelong learning and for advanced study in a wide range of majors at the university level.

## Course Requirements

Students must complete a minimum of 18 units.
