

PUENTE Program

Through counseling, writing, and mentoring, PUENTE program students are prepared to transfer to four-year colleges and universities and return to the community as leaders.

The year-long program includes intensive writing instruction, one-on-one work with a counselor to develop an educational plan, work with community-based mentors, and educational and cultural enrichment activities. PUENTE scholars enroll in designated sections of ENGL 100 and COUN 100 in the fall and ENGL 201 and COUN 105 in the spring. PUENTE scholars remain fully supported by the program until they successfully transfer to a four-year university or college.
